TANGERINE

DRIVING SUCCESS THROUGH INNOVATIVE SOLUTIONS

INTRODUCTION

Tangerine Company Limited was established in 2003 with the aim of becoming an expert in consulting and services
in the field of Digital Technology, starting with being an IT infrastructure service provider. Design and develop Data Storage, Virtualization, Networking and Security for many public and private organizations and are continuously growing. Currently, we have added services that support various technologies such as Software Defined Solution, Cloud Solution, Business Mobility,
Data Analytics & Machine Learning, Software Development and others that help support the expansion of business operations.
to be consistent with needs and create a competitive advantage in business to suit the Digital Transformation era.
